CONCLUSIONS FROM THE STUDY TOUR TO THE CZECH REPUBLIC

- The study tour for Ukrainian professionals was organised to the Czech Republic on September 22-27, 2024. The tour was organised by the Nature Conservation Agency of the Czech Republic and it was targeted to provide information on nature conservation in the Czech Republic and in the European Union with special attention to Nature Directives and Natura 2000 network.
- The study tour started in Prague with focus on theoretical and basic information about the legislation and governance in nature conservation with visit to the Ministry of Environment and the Nature Conservation Agency of the Czech Republic (NCA) headquarters. Participants got familiar with general assistance of Czechia to Ukraine in the field of environmental protection and the role of NCA in nature conservation. Visits to Protected Landscape Areas of Křivoklátsko, Brdy and České středohoří and České Švýcarsko National Park showed practical examples of nature conservation in the field covering issues such as management of steppe ecosystems, cooperation with local stakeholders, cooperation with army in military training areas, fire management, fish ladders and rivers permeability, visitor centers, etc.
